Dear Chuck,

I am sick and tired of being used as a football being tossed back and forth as you and Dr. Posner trade charges and counter charges. I feel that you have both abused my trust and good will.

I believe I made it clear to you I was very upset by your broadcast reference to "higher ups" killing your part of the piece as a result from pressure by TRW. It had nothing to do with any other pressure. As I have explained to you, the Executive Producer decided to re-focus the piece away from credit report problems to the vast array of information available to public data bases.

Let me add that any other conversations I had with you about any other topics played no role in this or any other editorial decision.

You have a First Amendment right to say anything you wish, but not to publicly malign me, ABC News or the executives in this business.

I deeply regret the whole incident and even more being used as ammunition in your war against Dr. Posner.

Sincerely,

A handwritten signature in black ink, appearing to read "Bettina Gregory". The signature is fluid and cursive, with a long, sweeping tail that extends to the right.

c.c. G. Posner

P.S. Should I hear anything more from either one of you about this topic, I will pass the information on to our attorney. Enough is enough!
